PROFESSIONAL SUMMARY

Detail-oriented Computer Science graduate with a strong foundation in programming, problem-solving, and software development. Proficient in languages such as Python, Java, and C++. Experienced in teaching programming concepts, deploying hardware infrastructure, and troubleshooting technical issues across enterprise systems. Effective communicator with a collaborative approach and a passion for technology. Committed to continuous learning and eager to contribute to innovative projects in a dynamic environment.

SKILLS

Programming Languages: Python, Java, C++, C#, SQL

Tools & Systems: Git, GitHub, Linux, Unix, Database Systems, Ticketing & Case Management, VSCode

Technical Expertise: Software Development, Hardware Deployment & Troubleshooting, IT Operations, Low-Voltage Cabling, Network & Systems Support, Critical Thinking and Analytical Reasoning

PROJECTS

JJCLA-LibAssist – Library Database Tool

- Developed a C# database application to digitize and streamline public library operations.
- Designed functionality for managing and organizing library data to improve operational efficiency.

WSU-Psych-App – Self-Monitoring App

- Developed an application for psychology clients and clinicians to record daily situations and generate assessment reports.
- Integrated OpenAI APIs, trained the AI models, and implemented data collection workflows.

EMPLOYMENT HISTORY

Operations Technical Specialist, H&R Block

AUG 2026 — PRESENT

Supported the operational and technical readiness of regional seasonal tax offices in collaboration with District Operations Coordinators (DOCs) and Technology Implementation Analysts (TIAs). Managed PC hardware deployment, setup, and teardown across multiple locations while executing low-voltage electrical work and network connectivity checks. Diagnosed and resolved hardware issues, accurately documenting incidents, resolutions, and district hardware/computer asset inventory within the ticketing and case management system.

Teaching Assistant, Washington State University

AUG 2023 — MAY 2026

Supported students in understanding complex programming concepts and resolved technical issues with various software tools. Fostered a collaborative learning environment through effective communication and problem-solving strategies. Provided tailored assistance to students with diverse technical backgrounds, enhancing their programming skills and confidence. Facilitated study sessions and workshops to improve student engagement. Developed clear instructional materials to simplify technical subjects. Enhanced student performance by providing timely feedback and support.

EDUCATION

B.S. Computer Science, Washington State University, Pullman, WA

AUG 2022 — MAY 2026

GPA: 3.5
