EXPERIENCE

Martha & Mary, Poulsbo — *Hospitality Aide*

June 2023 - August 2024

- Supported daily living activities by serving meals, feeding patients as necessary, and facilitating mobility and positioning.
- Distributed adjunct care, including ice packs, and heat treatments.
- Enhanced patient comfort by responding promptly to call lights and requests, providing companionship.
- Adhered to safety protocols and infection control measures to protect patient health.

Washington State University, Pullman — *Teaching Assistant*

August 2023 - May 2026

- Led weekly lab sessions providing hands-on instruction in programming fundamentals.
- Guided students through programming assignments in C/C++, debugging code and reinforcing key computer science concepts.
- Held regular office hours to provide individual and small-group support on course material, projects, and exam preparation.
- Graded programming assignments and exams, offering detailed feedback to help students improve technical and coding skills.
- Mentored students in developing problem-solving strategies, code optimization, and best practices in software development.
